## NATIONAL LIBRARY OF MEDICINE

### LOAN POLICY

All items listed in the **CURRENT LIST OF MEDICAL LITERATURE** are available at the National Library of Medicine. Readers who cannot obtain the journals at local libraries and who cannot come to the National Library of Medicine in person may use the interlibrary loan services of the National Library of Medicine, which is designed to extend the services of the Library at a distance.

**WHAT MAY BE BORROWED.** All printed literature in the Library's collection is available for loan, with the exception of ordinary current, in-trade publications where the presumption of wide-spread accessibility elsewhere is reasonable.

**WHO MAY BORROW.** The National Library of Medicine will loan material only to other libraries; individuals must route their requests through these libraries.

**FORM OF LOANS.** Material in the Library will be loaned in the original form or as photoduplicates (microfilm or photoprints). The National Library of Medicine reserves the right to determine in which form the loan will be made.

### INSTRUCTIONS

1. Requests for interlibrary loans are to be made in writing, using either the ALA Interlibrary Loan Form or the NLM Interlibrary Loan Form, available from the Circulation Section, National Library of Medicine. All requests must be signed, and the signature shall be understood to be certification that the material requested is not available in the requesting library.

2. Requests for loans should contain full bibliographic information. A request for an article should show the name of the journal, date of issue, volume number, author, and title of the article, and the pages (inclusive numbering) on which the article appears.

3. Loans of original works are made on condition that the greatest care be taken in packing and transmitting material for return to the National Library of Medicine. Among other precautions, the corners and edges of books must be well protected; unbound material should not be rolled but should be sent flat, preferably by mail. All returns must be adequately insured.

4. The borrowing library may retain original material four weeks from the date of receipt at the library. No renewals are granted. Any item may be recalled by the National Library of Medicine at any time. Interlibrary loans in the form of photocopies may be retained permanently by the borrowing library.

### OUTSTANDING COUPONS

The effective date of the change in photoduplication practices described above was September 1, 1957. No coupons for photographic services are now sold. Any photoduplication coupons sold by the National Library of Medicine or the Armed Forces Medical Library previously and still outstanding will be honored. Those who desire to use their coupons for the purchase of photocopies may still do so. Refunds for unused coupons will also be made upon request.

The **CURRENT LIST OF MEDICAL LITERATURE** is for sale by the Superintendent of Documents, U. S. Government Printing Office, Washington 25, D. C. Price: \$15.00 per year; \$20.00 foreign. All communications regarding subscriptions should be addressed to the Superintendent of Documents.

The printing of this publication has been approved by the Director of the Bureau of the Budget, 6 June 1956.

- catecholamines, in hypertension of old age (R) 27614
- catecholamines, in pheochromocytoma 39728
- metabolism**
- acetylation & nitrosation of amines causing reduction of azure eosin staining of tissue components 17386
- adrenal medulla content in mice in relation to sex, age & eff. of orchectomy (Fr) 40857
- cadaverinolytic activity in vitro of blood of pregn. women, eff. of estrone & progesterone (R) 29629
- conversion of aromatic amines to quinones & toxic, allergic & carcinogenic activity of endprod. (Ger) 26942
- diazotizable amine prod. by *Saccharomyces cerevisiae*, chem. nature & factors affecting accumulation 5093
- dimethylnitrosamine in various rat organs in vitro, relation to hepatotoxic action 37061
- dimethylnitrosamine metabolites in rats & mice 37065
- iodole- & phenyl-alkylamines, release from tissue of lower vertebrates & mollusca after reserpine admin. (R) 36599
- oxidative pathways in metab. of biogenic amines, review 31889
- spermidine biosynthesis from putrescine & methionine 16913
- trimethylamine in marine mollusks (Fr) 38718
- trimethylamine oxide, tubular secretion by glomerular kidney of fish 17324
- poisoning**
- ptomaines, chromatographic separation from alkaloids, medico-legal application, review (Fr) 47430
- preparation of**
- hexosamine sulfates, chem. synthesis 52309
- radiochem. synthesis of amines from simple molecules (Ger) 55559
- therapeutic use**
- 5,11-bis-(piperonylamino)-pentadecane in amebiasis in humans, results 36567
- 4,4'-diaminodiphenylamine in plasma cell myeloma 17286
- pressor amines in hypotension appearing after cessation of arterenol intravenous drip admin. 40111
- toxicity**
- octadecylamine, chronic tox. in rats 23300

## ANESTHETICS

diacetyl-carbol-glycerin ointment in cystoscopy in male (Bul)	28706	complications	epidural with chlorprocaine, safety & non-tox.	34969	aggressology, process & biol. significance of oxidation-reduction (Fr)	9061
heat sterilization of local anesth. drugs & equip. for complete decontamination	16615	nerve block, addition of vasoconstrictor drugs causing fetal reactions (Ger)	extradural, technique (Fr)	424	alleged inhalation of anesthetic by anesthetist during operation & subsequent charge with man slaughter	48313
in ther. abortion (Rus)	9867	paravertebral anesth. causing spondylitis (Ger)	paravertebral nerve block in intrathoracic surg. (Ger)	54937	anesthesiol. department in private hosp., problems in organiz. & develop.	35987
infiltration in gyn. surg. (Rus)	46821	perif. of dura mater by plastic catheter during caudal anesth.	peridural, indic. & technique (Rus)	45208	anesthesiologists, hazards of repeated exposure to radiations	35988
intramedullary (Ger)	11378	effects	peridural, segmentary, hydroxy-sine as coadjutant in orthopedic surg. (It)	6781	anesthetist's role in preop. exam., prep. of patient & anesth. choice	38447
intravenous admin. in surg. of extremities (Rus)	18190	nerve block proximal to metacarpophalangeal joint on finger movement	pharmacol. characteristics & mechanism of action of local anesth. cpds. used for spinal anesth.	16613	bibliog.	12074
intravenous admin. in various cond., use in outpatient department (Rus)	18192	Vishnevskii's procaine block, on adrenal vitamin C (Cs)	sacral epidural block, method using genucubital position, indic. (It)	39889	contribution of Henry Bescher	47319
intra-osseous, in orthopedics & traumatol. (Bul)	38729	in pregnancy	segmental peridural, in surg. of liver & bile ducts (It)	42487	contribution of Crawford M. Loag	54527
intravenous in ther. of purulent inflamm. of extremities in outpatient practice (Rus)	32586	causal anesth. in vaginal delivery, organiz. of serv., medication, technic & maternal & perinatal inf. mortal.	complications		contribution of Edward Robinson Squibb	48973
mediastinal infiltration anesth. in intrathoracic surg. (Ger)	54927	chlorprocaine nerve block in labor	arachnitis & paraplegia in monkeys after contamination of spinal anesth. needles & syringes by detergent washings	16614	contribution of John Snow	956
of urethra in males for clin. exam. & surg., technic (Por)	21052	podendal block, transvaginal approach, in labor	femoral nerve inj. unjustly attributed to anesth. in laparotomy, true cause discovered as Mann's abdom. retractor	14572	current progr.	5303
potentiated anesth. in thoracic & abdom. surg. (Rus)	18183	vagal ganglion block with scopolamine-N-butylbromide in labor (Sp)	headache, ther., caffeine with ergotamine (Pol)	53142	current progr. & technique	20501
potentiation by artif. hibernation (Rus)	43424	in various diseases	hypotension in anesth. for cesarean section, case report	52668	current status (Rus)	18248
refrigeration anesth., contribution of E. O. Mukhin (Rus)	32585	brachial axillary lidocaine block in fract. of arm in child.	late seq. of saddle block anesth. in labor	50172	decoration of anaesthetic room, patients' reactions	37727
refrigeration, indic. & technique (Ger)	34543	convulsive tic, intracutaneous admin. (Ger)	liability of physician	12980	in Bulgaria (Bul)	38719
with adjuvant hyaluronidase, review (Fr)	23664	ethyl aminobenzoate-urethane block in bioparasitism	lumbar disk collapse & lumbar neuralgia, caused by inj. of disks in spinal puncture (Fr)	44782	in England, comparison with Russia (Ger)	942
with artif. hibernation in thoracic surg. (Ger)	35947	intracutaneous alcohol-procaine anesth. in radiculitis (Rus)	malpractice suits & application of res ipsa loquitor	35988	in France, organiz. & educ. (Fr)	413
